

Dear FCC Comissioners,  
Sinclair Broadcasting has gone too far in forcing local stations to preempt their regular programming in order to air what amounts to an hour long issue ad blatantly favoring George Bush. This is an outrageous abuse of the public trust held by license holders of the public's air waves. I urge you to intervene to stop this obvious attempt by a private corporation to meddle in public affairs in a most inappropriate fashion. If corporations are allowed to behave unchecked and unregulated, there is a strong likelihood one of the pillars of democarcy will work to erode and undermine it. What a pity if this obvious turn is allowed to proceed and develop on you watches! Save your corner of democracy from abuse. Reign in Sinclair Broadcasting and work to keep media ownership local and vital. Our freedom of speech depends upon this and upon you.  
Sincerely,  
Doug Gaddy
